Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The prior art of record taken alone and in combination does not disclose "a method for detecting faults in a chiller based on vibration amplitude limits, comprising estimating an at least two-dimensional density estimate and weighting the historical data based on when the historical data was generated wherein the vibration amplitude limits are calculated as a function of frequency for an entire frequency spectrum" as recited in claim 19. These limitations are neither taught nor made obvious by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jacques M. Saint-Surin whose telephone number is (571) 272-2206. The examiner can normally be reached on Maxi Flex.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hezron Williams can be reached on (571) 272-2208. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
